

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

VALVOLINE POWER STEERING FLUID

- **Maintains performance in high and low temperature conditions**
- **Helps stop squeals and leaks under severe conditions**
- **Protects against corrosion and wear**
- **Will not clog of foam**

Valvoline Power Steering Fluid is a premium blended formula that helps maintain superior efficiency and performance of power steering units. Prevents leakage and squealing under severe conditions. Protects against pump breakdown caused by wear, oxidation and foaming. Effective in high and low temperatures. Performs in subzero temperatures to insure cold weather performance. Will not clog or foam. Helps prevent corrosion, wear and oxidation. Use year-round. Meets GM part number 1050017 (Spec. 9985010), Chrysler Spec. 5931, Ford Spec. and M2C128C & D.

Use the fluid recommended in the owner's manual. Some power steering units are designed to use transmission fluid, while others are designed to use power steering fluid. Using the wrong fluid can cause performance deficiencies such as excessive foaming or improper lubrication. Never use power steering fluid in transmissions or as an engine oil.

Check the level of the power steering fluid at least once a year. If the power steering fluid is low, check the owner's manual for proper fluid specifications before bringing fluid up to the specified level. Do not overfill.

Technical Data:

Appearance	Clear, Amber Liquid
Viscosity @ 40°C	50 cSt maximum
Viscosity @ 100°C	7 cSt minimum
Pour Point	-42°C maximum
Zinc, ppm	40 - 60

Effective Date:
3/1/11

Expiration Date:

Replaces:

Author's Initials:
RJB
